

Ameron Construction Co. Inc.

Ameron Construction is an employee-owned company dedicated to providing top-quality construction services at a competitive price. With more than 40 years of experience in the Centre Region, we know our business, and we know our community.

Last year, Ameron posted its largest sales volume ever as we partnered with Mount Nittany Health System to move life forward for our family, friends, and neighbors. At Mount Nittany Medical Center, we are working on the Lance and Ellen Shaner Comprehensive Cancer Center, scheduled to open this fall. We have been helping to expand the Emergency Department, a project that will add 26,000 square feet of space and renovate 14,000 square feet of existing space.

Our dedicated employees have been involved in the construction of a new Shared Services Building for paramedics, information technology, and administrative services, and we even temporarily relocated the helipad so life-saving flights could continue during construction. We thank Medical Center staff, patients, and visitors for being patient as we worked on a new main entrance and reconfigured parking all around the campus. Once we complete the final paving overlay in 2012, everyone will enjoy easier access to vital healthcare facilities.

Ameron employees have worked day and night on these Mount Nittany Medical Center projects, often braving bitter winter weather to get the job done. We believe it's well worth it, though. All of us at Ameron Construction are proud to be helping Mount Nittany Health System in its long-term efforts to serve our community.
